

**CURRICULUM VITAE
FOR**

CHAMINUKA MBANJE: Email: mbanjec@gmail.com Phone: 07565297807

Date of Birth: 04 September 1971

Languages: English, Shona, Ndebele, Chewa, Zulu, Bemba, and SiSwati

Career Objectives:

An exciting and challenging position with a progressive and dynamic organisation where my flair in ICT would be fully utilised to enhance an efficient, highly available and fully functional ICT infrastructure, training and service provision of any organisation.

Educational and Professional Qualifications

B. Sc. (Hon) Computer Science. National University of Science and Technology

Diploma in Information Processing, City and Guilds of London, 1997-1999

Diploma in Education (Mathematics), Gweru Teacher's College, 1994-1995

8 University of Cambridge O' Level Subjects, Lower Gwelo High School, 1989-1990

3 University of Cambridge A' Level Subjects, Tongogara High School, 1991-1992

1 University of Cambridge M' Level Subject, Tongogara High School, 1991-1992

Professional Board Membership

MIITPSA (Formally the Computer Society of South Africa): M051264 CRITICAL SKILLS
ASSESSMENT WITH IITPSA: CSA1926

International Certifications

Microsoft Certified: Trainer

Microsoft Certified: Azure Data Fundamentals

Microsoft Certified: Dynamics 365 Fundamentals

Microsoft Certified: Power Platform Fundamentals

MTA: Mobility and Device Fundamentals

Microsoft Certified: Azure Administrator Associate

Microsoft Certified: Power Platform Functional Consultant Associate.

Microsoft Certified: Power Platform Developer Associate

Microsoft Certified: Azure Data Engineer Associate

Microsoft Certified: Azure Data Scientist Associate

Microsoft Certified: DevOps Engineer Expert

Microsoft Certified: Azure Developer Associate

Microsoft Certified: Azure Security Engineer Associate

Microsoft Certified Solutions Associate: SQL 2016 Database Development (Charter).

Microsoft Certified: Dynamics 365 Business central Functional Consultant Associate.

Microsoft Certified: Dynamics 365 Supply Chain management Functional Consultant Associate.

Microsoft Certified: Dynamics 365 + power Platform Solution Architecture Expert (Retired Exam)

Transcript ID: 1237645.

Access Code: Munashe1234.

Achievements

Free Lance Trainer for Microsoft certifications in the listed Areas below:

- Microsoft Certified: Azure Data Fundamentals
- Microsoft Certified: Dynamics 365 Fundamentals
- Microsoft Certified: Power Platform Fundamentals
- MTA: Mobility and Device Fundamentals
- Microsoft Certified: Azure Administrator Associate
- Microsoft Certified: Power Platform Functional Consultant Associate.
- Microsoft Certified: Power Platform Developer Associate
- Microsoft Certified: Azure Data Engineer Associate
- Microsoft Certified: Azure Data Scientist Associate
- Microsoft Certified: DevOps Engineer Expert
- Microsoft Certified: Azure Developer Associate
- Microsoft Certified: Azure Security Engineer Associate

- Microsoft Certified Solutions Associate: SQL 2016 Database Development (Charter).
- Microsoft Certified: Dynamics 365 Business Central Functional Consultant Associate.
- Microsoft Certified: Dynamics 365 Supply Chain Management Functional Consultant Associate.
- Used Azure Synapse analytics to:
 - Designed the Azure Databricks data Ingestion implementation of students' sentiments from Twitter and Facebook
 - Designed, tested, and rolled out models for sentiment prediction in Azure Synapse analytics/Azure Machine Learning
- Designed the Azure DevOps environment used by development teams for version control and repository management.

Azure Security

- Designed and implemented Azure Security

Azure Synapse Analytics and Databricks for Data Engineering

- Designed and built secure data processing pipelines for storing and cleansing different datasets for analysis.
- Designed data storage structures, in Azure Data Lake solutions.
- Designed data pruning approaches, folder structures and distribution strategies
- Designed and implemented partitioning strategies and serving layers.
- Designed and implemented data processing for ingestion and transformation using:
 - Apache Spark, Transact SQL, Data Factory, Azure Synapse Analytics and Stream Analytics
- Designed and implemented stream processing solutions using Azure Stream Analytics, Azure Databricks and Azure Event Hubs

Designing and Implementing Data Science Solutions in Azure

- Managed various Azure resources for Machine Learning, o Manged data in an Azure Machine Learning Workspace
- Managed and implemented compute for experimentation, security, and access in Azure Machine Learning

Designing and implementing data centre infrastructure from given organisational requirements by analysing the given infrastructure:

- Created, trained, and served Machine learning models for student sentiment extraction
- Designed and implemented an e-learning platform for assessment and training for learners through Moodle e-learning platform and Dynamics NAV based on SharePoint.
- Managing and maintaining the student database for progress, registration, and general student life at NUST.
- Designed the NUST virtual infrastructure and the NUST VMware infrastructure using VMware 5.5
- Designed the backup and V-Switch for NUST for 55 virtual machines and 12 HOSTS
- Introduced a new security system: - Personal Firewall at the Cold Storage Company (Using Zone Alarm).
- Changed the coding system on Proteus to enable a smooth transfer of transactions from Proteus to Acc-Pacc in the Canning branch of the cold storage company of Zimbabwe.
- Configured the Zimbabwe Open University Local Domain Controller on Windows Server 2003 standard and SharePoint collaboration server.
- Successfully implemented a VSAT installation for BUSE
- Successfully installed and configured a Domain controller at BUSE
- Migrated from a Tel-One leased line and Come-One to Iway Africa as an internet service provider.
- Successfully implemented an E-Learning platform at ZOU using Claroline.
- Installed, configured, and maintained a new web server at ZOU on SUSE (SLES 10)
- Successfully implemented a wireless network at BUSE for use by staff and all students with Wi-Fi-capable devices.
- Successfully introduced Nod32 Antivirus software running on a single local server with 249 clients at Bindura University.
- Deploying and managing Windows 2008 R2 server for active directory for 1300 staff and above 7000 students.
- Successfully installed, configured and maintained Microsoft Exchange 2007 on Windows 2008 sp2.
- Successfully implemented Zimbra Mail Service at NUST for 1200 staff users using Zimbra 8 FOSS running on CENTOS 6.
- Managing VMware virtual infrastructure for 12 physical machines and more than 60 hosts running varied services.
- Configuring, Managing, performance optimization and maintenance of MS-SQL server 2005 and 2008 database as a back-end database for NAV ERP.
- Maintaining, configuring and software development work (Project) of Microsoft Dynamics NAV 2009 ERP for students' management, financial management, students' performance, and Human resources management.
- Project planning and implementation for Exchange server for NUST University.
- SharePoint Server and SharePoint online
- Develop, execute, and document procedures and standards adhering to SharePoint and Allstate best practices
- Create documentation for any function performed under any competency as directed
- Plan and design improvements to SharePoint performance as directed
- Recognizes, develops, and delivers necessary improvements to process and services
- Working knowledge of ITIL, and service management best practices
- Provide detailed architecture analysis and design, and direction on development activities

-
- Performer High level of performance with strong multitasking abilities
- Develop workflows in SharePoint to help execute business processes
- Create and manage new SharePoint pages
- Create, leverage, and manage content types, site columns, page layouts, lookups and templates for re-use in sites
- Monitor Site Collection activity and utilization, and establish governance rules regarding data retention
- Manage file size limits and site quotas
- Manage usage confirmation settings
- Work as part of a team, as well as independently, with minimal supervision to achieve project milestones and deadlines
- Researching and analysing emerging SharePoint solution technologies, techniques, and protocols and making recommendations
- Providing ongoing progress to leadership, system owners, and peers regarding health of the environment and status of testing
- Supporting and documenting the implementation of approved changes to system configurations, software, and infrastructure within the approved testing schedule
- Interfacing with C2 system owners during integration testing preparation and execution
- Performing quality assurance (QA) testing and user acceptance testing (UAT)

Windows Server Administration

- User account management and administration, troubleshooting User's login & home directory-related issues, reset password and unlocking user accounts.
- Assisted in restoring databases from different types of backups Online, Offline and volume shadow copy.
- Managing Disk Usage, Encryption and Disk Administration.
- Provided Risk Assessment and remediation guidance for SCCM infrastructures.
- Created as and when required the quires-based collections.
- Configuration and maintenance of CISCO ROUTERS, and Switches.
- Installing configuring knowledge of ADS, DNS & DHCP.
- Maintaining the leased lines and Problems getting Resolved By service providers.
- Aiding in network-related issues (LAN/WAN).
- Backing up the router configuration, Cisco IOS, resetting Password.
- User accounts maintenance, managing resources with Security strategies using Active Directory Groups, Managing Group Policies using OU's, Authentication mechanism.
- Installing Windows 2019 also deploying server VM from Templates
- In depth knowledge and technical proficiency in TCP/IP protocol stack and other network protocols such as: DNS, DHCP, Direct Access, VPN, IPV4/IPV6.
- Installing configuring knowledge of ADS, DNS & DHCP.
- Remote installation of software's & Patches.
- Deploying Operating Systems through Windows Deployment Service.
- Taking server backup and desktop imaging using Ghost backup utility
- Developed the process to patch and support clients using software updates management in SCCM

Exchange Online and Server services

- Planned a Retention solution for Exchange server 2007/2013 and Backup for Enterprise Network and Active directory.
- Performed a multiple administrative task in ECP and administering the Users, SFB, Password, Exchange, and Security Management.
- Implemented single sign On Authentication method with Office 365 and configured DirSync and ADFS for Active Directory Synchronization.
- Troubleshooting Skype for Business issues and Migrations to Teams.
- Manage and Administer Microsoft Exchange/Skype for Business server and Active Directory Infrastructure.
- Management of the Microsoft Clusters.
- Vast experience in troubleshooting and resolving both client and server-side issues.
- Implementation of Tenant Office 365 with Azure AD connect and ADFS for single Sign ON.
- Upgrade form ADFS 2.0 to ADFS 3.0.
- Extensive experience in configuring and managing. Troubleshooting physical, Virtual infrastructure in cloud and ON premises on Windows Server, Active directory, Networking Storage, VMware, Hyper-V.
- Responsible in maintaining the settings of connectivity with Outlook and User Mailboxes.
- Met with requirements for the External connectivity Exchange i.e. OWA, ActiveSync and Outlook Anywhere.
- Provided a business solution for the small and enterprise level companies using Lync Online and combination of Cloud-based Office 365 and On-premises Exchange servers.
Administration, Maintenance and Management of Mailboxes and Troubleshooting Exchange Components (Exchange Database, Outlook Web Access, Offline Address List, Mail flow, Public Folders, Free/Busy information).
- Performing Exchange Server Archiving -archive items from Microsoft Exchange User Mailboxes and public folders.
- Working and deployed with upgraded Microsoft Exchange 2019 to Office 365 Environment.
- Performed troubleshooting issues of Office 365 including mail routing issues.
- Prepared on-premises AD infrastructure for migration effort by using IDFIX tool for directory clean up.
- Create user accounts, assign group rights, create distribution lists, maintain Windows folder security, and create group policy.
- Administered the Domain Name Server (DNS). The DNS configuration was connected to an instance of Windows Active Directory, and the operation of the directory service is based on a properly functioning dynamic DNS infrastructure.
- Knowledge in Microsoft 365 licensing E1, E3, E4 and E5.
- Creating and deploying Operating System template images using VMware infrastructure client.
- Decommissioned Exchange server from the network domain after Office 365 migration completed using Microsoft best practices.
- Generate periodic reports on Mail Flow.
- Manage recipient objects, including migrating recipients from previous versions of Exchange server to Exchange server 2010/2013.
- Designed and planned for the Archiving, legal hold, Journaling, and Retention policies after Mailboxes moved to Microsoft 365 online.
- Room mailboxes are for fixed locations such as meeting rooms or conference facilities from Resource Scheduler.

- Protecting from Spam Attack by implementing the anti-spam on the HUB-servers.
- Provide support and maintenance of Microsoft Office Outlook Web Access and Microsoft Office Outlook, E-mail, Calendaring & Scheduling.
- Blacklisted threats for incoming email by installing, configuring, and using Firewall Software.
- Designed the Mail flow for the Current Exchange Environment.
- Migration from 2007 to 2013 as well 2016 to Microsoft 365.
- Troubleshooting Experience with Outlook, Exchange server, ActiveSync and OWA.
- Migrating from Physical Server to Virtual Server.
- Creating and deploying of operating system template images using VMware infrastructure clients.

Work Experience

- 1. Storage Operations and User Support JASMIN July 2023 to date**
Managing and maintaining GWS Storage for JASMIN users in a High-Performance Computing (JASMIN - STFC)
- 2. Azure Security, Data Science and Engineer 2015 to July 2023**
Independent contractor
Data Science and Data Engineering Projects
- 3. Software Engineer NUST 2010 to 2015**
Maintaining and implementing ICT infrastructure for 1500 staff and about 10000 learners.
Exchange, SharePoint, and Active Directory Management
- 4. I.C.T Manager**
Bindura University of Science and Education August 2009 to March 2010 Duties and Responsibilities
Human resource management in the ICT department
Project Planning and Implementation
Resource allocation and budget preparation
Strategic planning and steering of ICT towards institutional strategies
Configuration Management and Change Management
Policy formulation and implementation
I undertook research into new ICT procedures, methods, and technologies. Mail, SharePoint, and Exchange management
- 5. I.T Engineer**
Zimbabwe Open University February 2009 to August 2009 Duties and Responsibilities Network monitoring and maintenance, Hardware maintenance and support, Systems support engineer and general consultancy on ICT issues in the University Configuration management of mail, web, firewall and domain controller I managed network and Hardware at ZOU.
Active directory certificate management server,
TMS Project and duty allocation to 14 Hardware technicians
- 6. Facilitator**
Mbabane Swaziland November 2008
Advanced Management Information Systems AMADI Duties and Responsibilities
Facilitated in Advanced MIS to Directors from the Ministry of Youth of Namibia for 4 weeks Facilitated in Statistical analysis with Computers for Westminster in SPSS and MINITAB to Ghanaians and Namibian diplomats from the Ministry of Information.
Course Content: MIS, Computer Security, E-commerce, Strategic Management, E.D.I, Databases Management and Experience, the need for MIS. Data representation and data analysis
- 7. I.T Controller**
First Cargo PTY LTD May to July 2008 Duties and Responsibilities
Domain maintenance: Windows 2000 and 2003 server
User Support, Mail server maintenance Centos Linux MS Office and email support File server maintenance.
Maintenance of Network Monitoring Network Performance tools
Resource tracking, recommending of accounting and financial packages

And methodologies to employ in ERP systems and applications including ISO certification Enhancing and maintaining the billing system for clients.
Router monitoring and connectivity tester with DATAPRO

8. I.T Technician

Cold Storage Company Information System Department Head Office Bulawayo 2005 to August 2006 Duties and Responsibilities
Liaison for management and service providers for software, hardware, and ISP
AIX server trouble shooting and maintenance
Proteus trouble shooting and maintenance
Red Hat Linux server for Internet and email user account maintenance
User training in Ms Office Suite
Network cabling, troubleshooting and Maintenance. Including hub, Digi boards, laptops, PCs, switches, and patch-panels
Wireless network maintenance and support
Printer maintenance and PC repair and upgrades
Budget preparations for Information System department and ICT for CSC
Purchase of Programs and hardware for CSC
Programming in VB, Programming in Java

9. Teacher

Mathematics teacher,
2002-2006 December at Luveve High School,
1997-2002 February Pumula High School
1996-1996 December Sontala High School

Hobbies

Volleyball, Swimming, Fishing

Work Experience

- 1. UKRI**
Storage and User Support JASMIN
28 July 2023 to date
- 2. Director Infrastructure and Development Director 2019 to Date**
NPC Cloud Solutions Services LTD
- 3. Senior Facilitator Mercer Inter Ed 2020 to Date**
Microsoft and CompTIA Course offerings
Azure, MS-365
- 4. Head of Program 2019 to 2020**
IT Cloud Solution Administration and IT Cloud Engineering

CTU Pretoria

Duties and Responsibilities

Program Roll out and development

Managing and Monitoring Staff in 14 Campuses
- 5. Lecturer February 2019 to 2019**
CTU Pretoria

Duties and Responsibilities

Lecturer in Dip IT 1, 2 and 3, MCSE, and Tech Support

2. Lecturer 2016 to 2018

Damelin **Menlyn Campus**

Duties and Responsibilities

Lecturer in BCom IM, Dip IT and PC Eng IT Courses

3. Campus Manager 2016 to 2016

Landross Mare

Richfield Graduate Institute of Technology

Polokwane

Duties and Responsibilities

Budgeting, Human Resources management, Time Tabling, Scheduling

Reporting on performance and target achievement

4. Facilitator September 2015 to 2016

PC Training and Business College now called RGI

Training and systems Management

5. Software Engineer NUST 2010 to 2015

Maintaining and implementing ICT infrastructure for 1500 staff and about 10000 learners.

Exchange, SharePoint, and Active Directory Management

6. I.C.T Manager

Bindura University of Science and Education August 2009 to March 2010

Duties and Responsibilities

Human resource management in ICT department

Project planning and Implementation

Resource allocation and budget preparation

Strategic planning and steering of ICT towards institutional strategies

Configuration Management and Change Management

Policy formulation and implementation

I undertook research into new ICT procedures, methods, and technologies. Mail, SharePoint, and Exchange management

7. I.T Engineer

Zimbabwe Open University February 2009 to August 2009

Duties and Responsibilities

Network monitoring and maintenance, Hardware maintenance and support, Systems support engineer and general consultancy on ICT issues in the University

Configuration management of mail, web, firewall and domain controller I managed network and Hardware at ZOU.

Active directory certificate management server, TMS

Project and duty allocation to 14 Hardware technicians

8. Facilitator

Mbabane Swaziland November 2008

Advanced Management Information Systems AMADI

Duties and Responsibilities

Facilitated Advanced MIS to Directors from the Ministry of Youth of Namibia for 4 weeks

Facilitated Statistical analysis with Computers for Westminster in SPSS and MINITAB to Ghanaians and Namibian diplomats from the Ministry of Information.

Course Content

MIS, Computer Security, E-commerce, Strategic Management, E.D.I, Databases Management and Experience, the need for MIS. Data representation and data analysis

9. I.T Controller

First Cargo PTY LTD May to July 2008

Duties and Responsibilities

Domain maintenance: Windows 2000 and 2003 server

User Support, Mail server maintenance Centos Linux MS Office and email support File server maintenance.

Maintenance of Network Monitoring Network Performance tools

Resource tracking, recommendation of Accounting and Financial packages

And methodologies to employ in ERP systems and applications including ISO certification Enhancing and

maintaining the billing system for clients. Router monitoring and connectivity tester with DATAPRO

10.. I.T Technician

Cold Storage Company Information System Department Head Office Bulawayo 2005 to August 2006

Duties and Responsibilities

Liaison for management and service providers for software, hardware and ISP

AIX server troubleshooting and maintenance

Proteus troubleshooting and maintenance

Red Hat Linux server for Internet and email user account maintenance

User training in MS Office Suite

Network cabling, troubleshooting and Maintenance. Including hub, Digi boards, laptops, PCs, switches, and patch-panels

Wireless network maintenance and support

Printer maintenance and PC repair and upgrades

Budget preparations for the Information System department and ICT for CSC

Purchase of Programs and hardware for CSC

Programming in VB

Programming in Java

10. Teacher:

Mathematics teacher: GCSE-O Level

2002-2006 December at Luveve High School,

1997-2002 February Pumula High School,

1996-1996 December Sontala High School

Duties and Responsibilities

Mathematics Teacher forms 1 to 4, Sports Adviser to the sports council, Sports instructor Computer Studies Teacher

Hobbies

Volleyball, Swimming, Fishing
